PURSUANT TO SECTION 214(3)(6) OF )  
THE COMMUNICATIONS ACT OF 1934 )

CAUSE NO. 41052-ETC 46

**FILED**

JUL 12 2004

INDIANA UTILITY  
REGULATORY COMMISSION

**BY THE COMMISSION:**

David E. Ziegner, Commissioner

Lorraine Hitz-Bradley, Administrative Law Judge

You are hereby notified that on this date the Indiana Utility Regulatory Commission ("Commission") has caused the following entry to be made:

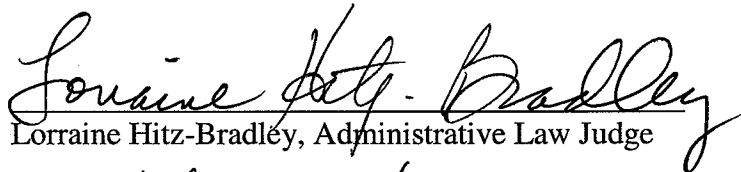

Centennial should answer the following data requests on or before July 20, 2004.

1. How does Centennial handle the termination of wireless traffic into rural exchanges?
2. Does Centennial pay compensation to rural carriers and if so, what form does that compensation take?
3. Does Centennial maintain records for consumer complaints? If so, please describe the categories for consumer service quality complaints, how many complaints were received in calendar year 2003, and to date in 2004 in each category.
4. On page 11 of Centennial's Renewed Application, it states that:  
"Centennial's service offers safety- the ability to always find someone you are trying to contact. This is especially important for parents who want to know they can always contact their children. This is a commonly used application of

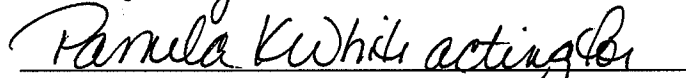

wireless service in urban areas. Parents in rural America should have the same benefit." Does this statement mean that Centennial utilizes GPS (global positioning system)? Please explain your answer.

5. On page 11 of Centennial's Renewed Application, it states that Centennial will offer number portability in accordance with FCC requirements "in all other areas" by May 24, 2004. Is this service offer in place as of the date of this docket entry? Please explain what "all other areas" means in terms of Centennial's service in Indiana.

**IT IS SO ORDERED.**

  
Lorraine Hitz-Bradley, Administrative Law Judge

Date: July 12, 2004

  
Nancy Manley, Secretary to the Commission
